Research in Gestalt Therapy: International Conference in Paris

26-28 May 2017

The EAGT invites you to join this important international conference that aims to encourage and support research in Gestalt therapy

Places limited!

This conference :

- ✚ Is designed for networking, collaboration and the elaboration of new research projects for Gestalt-therapy
- ✚ Is addressed to Gestalt practitioners, trainees and other psychotherapy practitioners
- ✚ Will exhibit current research and explore research relevant to the Gestalt tradition
- ✚ Will feature established clinicians-researchers who can stimulate and encourage those new to the field
- ✚ Will have world class psychotherapy researchers participating: Louis Castonguay, Wolfgang Tschacher and Xavier Briffault

**More information will soon appear on the EAGT web:
www.eagt.org**

The price will be kept down to the minimum possible in order to promote participation of the trainees and colleagues coming from countries with economic difficulties.

For the training institutes: please try to keep these dates free from seminars in order to allow your trainees to participate. We hope to offer them a real opportunity to experience and integrate into a supportive gestalt research community.

Please, distribute this first announcement to your contacts!
